

2022 SUPPLIER DIVERSITY

AQUASM
An  Essential Utilities Company

President's Message

As one of the largest publicly traded water, wastewater, and natural gas providers in the U.S., Essential Utilities, Inc. has a combined 250 years of operating experience and a shared commitment to rebuilding the nation's aging infrastructure. Under the Aqua and Peoples brands, Essential remains committed to diversity and inclusion within its workplace and with its relationships with contractors and suppliers.

Aqua Illinois continues to partner with local vendors in the communities we serve, further establishing and growing partnerships with diverse contractors and suppliers. Our commitment to our diversity program continues to support local economies and regional growth and economic vitality.

In 2022, we increased our total diverse spend by approximately \$1.3 million or 22% from 2021. Of the \$43.9 million total spend in 2022, \$7.3 million or 17% was diverse spend and \$4.5 million or 10% was small business (SBE) for a total reportable spend of \$11.9 million. At Aqua Illinois, our customers' communities are our communities, too. Expanding and fostering a diverse environment where all are represented makes us a stronger, socially responsible corporate citizen. I am especially pleased with all we were able to accomplish this past year and invite you to follow our continued progress in this report.

Terms and Definitions

A diverse supplier is defined as any business that is owned by a U.S. Citizen and 51% owned, managed, and controlled by one of the following: (MBE) African American, Hispanic American, Native American, Asian American, or a (WBE) woman or (VBE) veteran. For purposes of this report, we are including (SBE) small business enterprise, which is a business that is defined by either the number of employees or average annual receipts of a business concern.

Aqua only recognizes and uses suppliers that are certified as diverse—MBE, WBE, or VBE.

Supplier Diversity Classification	
Minority Owned Business Enterprise (MBE)	A person or persons who is/are United States Citizens or lawful permanent residents and is/are African American, Hispanic American, Asian American, Native American
Women Owned Business Enterprise (WBE)	A woman or women who is/are United States Citizens or lawful permanent residents of the United States
Veteran Business Enterprise (VBE)	One or more veterans who is/are United States Citizens or lawful permanent residents of the United States

Policies and Methodology

At Aqua, the core values of integrity, respect, and excellence are embedded within our business practices and our behavior. We proudly hold ourselves accountable to fair and transparent business practices and strive to operate as a socially responsible corporate citizen. We also expect our suppliers and contractors to demonstrate the same commitment to these values.

We recognize that Supplier Diversity is significantly important to our long-term procurement and supply chain process strategy. We have strategies in place to further build and enhance relationships with more diverse suppliers, and encourage them to compete for materials and services throughout all of Aqua. It is the policy of Aqua to develop significant partnering relationships with diverse firms to:

- Enhance the supply chain via lower costs, increased response time, higher level of quality, etc.
- Provide a competitive advantage in building brand equity and retaining existing or generating increased market share.

Additionally, all employees with spending authority are encouraged to consider diverse businesses as Tier I suppliers and to encourage Aqua's prime suppliers to do the same. Aqua encourages any certified diverse supplier that may have services of value to Aqua to apply as a supplier.

Aqua also submits an annual report of its diverse supplier spend to the Illinois Commerce Commission, which also tracks Aqua's Tier II spend dollar amount and percentage.

Aqua strongly encourages all of its prime suppliers to utilize diverse suppliers, as well as submit their diverse spend dollar amount and percentage (of Aqua project/contract) through Aqua's automated Tier II reporting tool, the Supplier IO UniTier Tier II Platform, on an annual basis, no later than January 31.

Supplier Diversity Goals

As needed, Aqua works with a supplier diversity consultant to help identify and vet additional new qualified suppliers. This helps ensure we continuously enhance our policy to not only strengthen our ability to increase overall diverse spend, but also to identify new categories of goods and services that may create opportunities for additional diverse suppliers.

Since 2020, these efforts have directly resulted in many advancements made to the supplier diversity program, including:

- Increased VBE by 69.6%
- Increased All Other by 199.1% or \$37.8K
- Increased Building & Grounds by 164.6% or \$171.6K
- Increased Chemical by 92.5% or \$196.6K
- Increased Technical Services by 58.7% or \$773.6K

Aqua has also taken action internally to increase its work with diverse suppliers in the procurement process. This includes:

- Leadership commitment and accountability—demonstrating leadership commitment and accountability through messaging, policies, and behavior that advances diversity and inclusion goals and objectives.
- Promote business and community diversity—advancing diversity and inclusion in the Aqua supplier base by directing and supporting diverse suppliers, as well as supporting diverse groups through our charitable giving program.
- Regular review of vendor relationships—reviewing 12-month rolling spend of all vendor relationships exceeding a threshold of \$50,000 to identify opportunities to solicit bids from diverse vendors as services are renewed.

Areas of Procurement for the Next Calendar Year

Supplier diversity goals for 2023 include:

- Enhance program and policies including process for identifying current and new opportunities.
- Further expand use of supplier diversity dashboard for real-time reporting and tracking.
- Increase number of in-person and/or virtual events in all three regions.

Buying Plan

Over the next two years, Aqua Illinois has a large capital-intensive program planned that includes a wide range of projects and services. While final scope and schedules are yet to be determined, the full buying plan can be found in the appendix section of this report.

Challenges and Opportunities

Aqua Illinois continues to identify new opportunities to expand its diversity spend and increase the number of diverse suppliers available in its pool of potential contractors. Aqua continues to identify potential diverse suppliers in a number of categories. As suppliers are vetted, they are invited to present their capabilities:

- Technical Services
- Professional Services
- Water Chemicals
- Engineering Services
- Legal
- Treasury
- Testing Laboratories
- Wastewater Residuals Management

Aqua also continues to work to identify opportunities to be inclusive and overcome other challenges related to identifying suppliers in rural areas and those with the capabilities to participate in larger bidding processes, such as chemical purchases and sludge hauling.

Other efforts to identify diverse suppliers include plans for Supplier Diversity Workshops with our prime suppliers to connect them with MBEs, WBEs, VBEs, and expand the use of the Supplier IO database. When possible, in-person workshops are preferred, pending local COVID-19 safety protocols. Aqua is also working with local resource and regional partner organizations to identify additional qualified and certified suppliers and continues to connect with and develop relationships with SBE suppliers.

Success Stories

The logo for Gene Wren Construction LLC is displayed within a white rounded rectangle on a blue background. The text "Gene Wren" is in black, and "Construction LLC" is in red.

**Gene Wren
Construction LLC
(VBE)**

“

We have worked with Aqua for over 20 years and we believe that they have been a large reason for our success. After receiving our Veteran owned business status, our project opportunities have nearly doubled.”

- Willie Wren, Gene Wren Construction, LLC

The logo for Tegrete Corporation features the word "tegretē" in a stylized font, with "tegretē" in green and "ē" in orange. Below it, the words "FACILITY MANAGEMENT" and "WITH INTEGRITY" are written in a smaller, sans-serif font.

**Tegrete Corporation
(WBE)**

“

In 2022, Tegrete began working with Angela Serafini, Area Manager for Aqua Illinois, to provide lawncare contracted services for over 60 sites across Illinois. As a result of this relationship, in 2023, Tegrete partnered with Aqua North Carolina to provide similar contracted services for 650 sites. In addition to being a Tier I diverse supplier, we also seek opportunities to partner with Tier II diverse subcontractors.”

- Teresa Carlson, Majority Owner

About Aqua Illinois

At Aqua Illinois, we care about the people and communities we serve—over 277,000 people through 68,000 water connections and 24,000 wastewater connections in 14 counties. It's why we continually invest in our systems to ensure we meet state and federal environmental regulations and support local waterways. Aqua Illinois is committed to purchasing from suppliers that strive to improve the environmental quality of its water and wastewater operations, and that use reasonable efforts to minimize pollution, and improve environmental protection and sustainability.
